

## **First Majestic Silver and the municipal authorities of Chalchihuites bring water to 250 families.**

As part of the Social Responsibility policies implemented by First Majestic Silver Corp. in the communities in which it operates, and in conjunction with the municipal authorities of Chalchihuites Zacatecas, a water well was inaugurated which will benefit 250 families from the communities of Hormiguero and San José. These communities did not have such a service previously.

The installation of the water well was carried out thanks to the intervention and management of both the Mayor of Chalchihuites and First Majestic Silver Corp. who reached an agreement to install the infrastructure for the operation of this well. This is a clear example of the Company strengthening its ties with the community.

Mr. Pedro Miranda, Mayor of Chalchihuites , Alfonso Aguirre representing First Majestic Silver Corp. and representatives of the recently created Water Committee attended the inauguration of the water well.
